

DIGITAL WELL DATA

The State Oil and Gas Board of Alabama (SOGB) is now distributing well production and well location data through the Geological Survey of Alabama (GSA). The data are available in a variety of formats, such as fixed text, comma or tab delimited, DBF, MDB, and MS Excel XLS.

The well production data consist of monthly production history for each individual well and may be purchased at a cost of \$1.00 per thousand records, with a \$25.00 minimum charge. The data include the following: permit, field code, pool code, production date (year and month), operator code, well status, days producing, water production, gas production, gas sales, and oil/condensate production. A list of codes for fields, pools and operators will be included as well as a description of the data structure.

The well location data consist of location data for each individual well and may be purchased at a cost of \$1.00 per thousand records, with \$25.00 minimum charge. The data include the following: permit, API number, well name, operator, field, pool, county, region, well status, well type, location (S, T, R, feet from section lines), latitude/longitude, unit size and description, permit date, spud date, log date, test date, status date, TD driller, TD logger, TD plugback, KOP, and elevations (GL, DF, KB). A description of the data structure will be included.
