FORM 41 A

NOTIFICATION OF COMPLIANCE WITH GENERAL RULE D-22 REQUIREMENTS FOR NEW LEASE RIGHTS GAS SUPPLY LINES

Utilizing the services of a plumber, licensed by the State of Arkansas, to install or inspect a Lease Rights Gas Supply Line, the Lease Rights Gas Supply Line Operator shall have:

- A properly-sized regulator(s) installed on the Lease Rights Gas Supply Line at the Well Operator Connection point and at the dwelling or structure where the natural gas is utilized in accordance with section c) 1) of the rule.
- A properly installed gas utilization meter in accordance with section c) 1) of the rule.
- A properly installed excess flow valve on the Lease Rights Gas Supply Line as close to the Well Operator Connection as feasible in accordance with section c) 2) of the rule.
- Properly installed dehydration facilities on the Lease Rights Gas Supply Line downstream from the Well Operator Connection in accordance with section c) 3) of the rule.
- Utilized approved materials, as specified in section c) 4) A) of the rule, to construct the Lease Rights Gas Supply Line which shall be buried to a depth of 18 inches in accordance with section c) 4) B) of the rule.
- The Lease Rights Gas Supply Line pressure tested in accordance with section c) 4) A) of the rule.
- Properly installed signage along the Lease Rights Gas Supply Line in accordance with section c) 5) of the rule.
