INSTRUCTIONS

This request for a Certificate of Compliance shall be executed and filed with the appropriate Commission District Office upon the actual completion, recompletion and/or commingle of the well, and prior to commencement of production (date of first sales). Original Completion is defined as initial zone perforation and configuration of wellhead for production, excluding pipeline connections. Any further completion work, after the initial configuration of the wellhead, shall be considered a recompletion or workover. A Form 4A (Notice of Commencement of Production) shall be filed by the permit holder notifying the Commission of the actual date of first sales.

This form is required to be filed and approved for any well returned to production if the well has not produced in the last twenty-four (24) months and has been temporary abandoned per General Rule B-7.

This form is required to be filed and approved for any well returned to production using the orphaned or abandoned well (plugging) program.

The checkbox for "Request for Certificate of Compliance" must be checked along with the well category (below the Request for Certificate of Compliance checkbox) in order to receive an approved "Certificate of Compliance". This certificate approval is granted to the permit holder upon submission of required data per General Rule B-5.

This form is required to be filed for each change in purchaser (South Regional District Only) and must have the checkbox for "Notice Authorizing Purchaser or Purchaser Change" checked.

The "General" section must be completely filled out.

After said Certificate of Compliance has been approved by the Commission, one copy shall be returned to the permit holder.

<u>DATA REQUIREMENTS FOR THE APPROVAL OF A CERTIFICATE OF COMPLIANCE FOR AN ORIGINAL</u> COMPLETION:

- 1) Form 3 Well Completion or Recompletion Report, along with a bottom hole directional survey (if applicable) and any additional information required by specific field rules;
