STATEMENT OF NO OBJECTION TO PROPOSED SURFACE DISTURBANCES

This is to certify that I, _____, am a surface owner of the tract of land to be affected by the proposed _____ Well No. _____, to be permitted by _____.

I hereby state that I have been advised by certified mail, as required under the Tennessee Code Annotated, Title 60, Chapter 1, Part 2, of the proposed location of the oil or gas well site, the proposed location of all new ingress and egress (Access roads), the location of all diversions, drilling pits, dikes, and related structures and facilities, the location of the proposed storage tanks and all other surface disturbances.

I also state that I have been advised that I have fifteen (15) working days from the date of the mailing of the required certified mail notice to discuss the location of the surface disturbances associated with the drilling operation, to sign a statement of no objection, to request a contested case hearing for the purpose of minimizing the impact of the proposed drilling operation on the surface of my land, or to allow the well to be drilled and the disturbances located as described without written agreement or objection on my part.

With all of this in mind, I hereby state that I have no objection to the location of the disturbances as described in said notice.

WITNESS my hand this _____ day of _____, 20____.
